

**If it looks like malware,  
swims like malware  
and quacks like malware  
it probably is malware.**

**Botlek Studiegroep**

**Welcome to Emerson**

Rijswijk September 1<sup>st</sup> 2022

## Agenda

- 18.00 uur Ontvangst met broodje en drankje
- 19.00 uur Introductie
  - Welkomstwoord
  - Uitleg wat te verwachten & introductie sprekers
- 19.10 uur Cyber security I
  - Marcel Jutte - Hudson Cybertec
- 20.00 uur Pauze
- 20.15 uur Cyber security II
  - Pieter Kroon - Accountmanager ICT-opleidingen bij HBO Drechtsteden
- 21.00 uur Afsluiting
  - Dankwoord
  - Netwerkborrel

# Emerson Automation Solutions

Carlo Totté

Sr. Solutions Consultant ICSS Benelux

---

# Industries Served by Emerson

**Chemical**

**Oil & Gas**

**Power**

**Refining**

**Life Sciences**

**Marine**

**Metals & Mining**

**Industrial Energy**

**Food & Beverage**

**Pulp & Paper**

**Alternative Energy**

**Water & Wastewater**

# The Plantweb Digital Ecosystem: Enabling Top Quartile Performance With the Industry's Broadest Integrated Portfolio of Digital Transformation Solutions

## DIGITAL FOUNDATION

## DIGITAL TRANSFORMATION

Services

Project, Lifecycle, and Educational Services

**Consulting & Implementation**

- Digital Strategy & Cybersecurity
- Upskilling & Change Management
- Shutdowns, Turnarounds, & Outages
- Industry Expertise

**Service Models**

- Software-as-a-Service Cloud-Deployed Applications
- Connected Services Asset Expertise and Actionable Insights

Analytics  
*Edge, On-Premise, and Cloud*

Production Optimization  
  
Operator Performance  
  
Control & Safety Systems

**Platforms & Software**

- EMERSON PLANTWEB optics: Asset Performance Platform Connect, Analyze, and Collaborate
- EMERSON PLANTWEB insight: Device & Machinery Diagnostics Condition-Based Analytics
- EMERSON PLANTWEB insight: Asset Health Apps Pre-Configured Analytics
- Workforce Effectiveness Digitally Enabled People
- Digital Twin Plant & Asset Optimization

Connectivity

SCADA

**Secure Connectivity**

- Data Integration Architectures & Network Design
- Cybersecurity Embedded at All Levels
- Secure First Mile Data Pathways to External Applications and Experts

Data

**Intelligent Field Devices**

- Measurement Instrumentation
- Valves & Actuators
- Motion Control

**Pervasive Sensing**

- Process
- Environment
- Equipment
- People & Assets

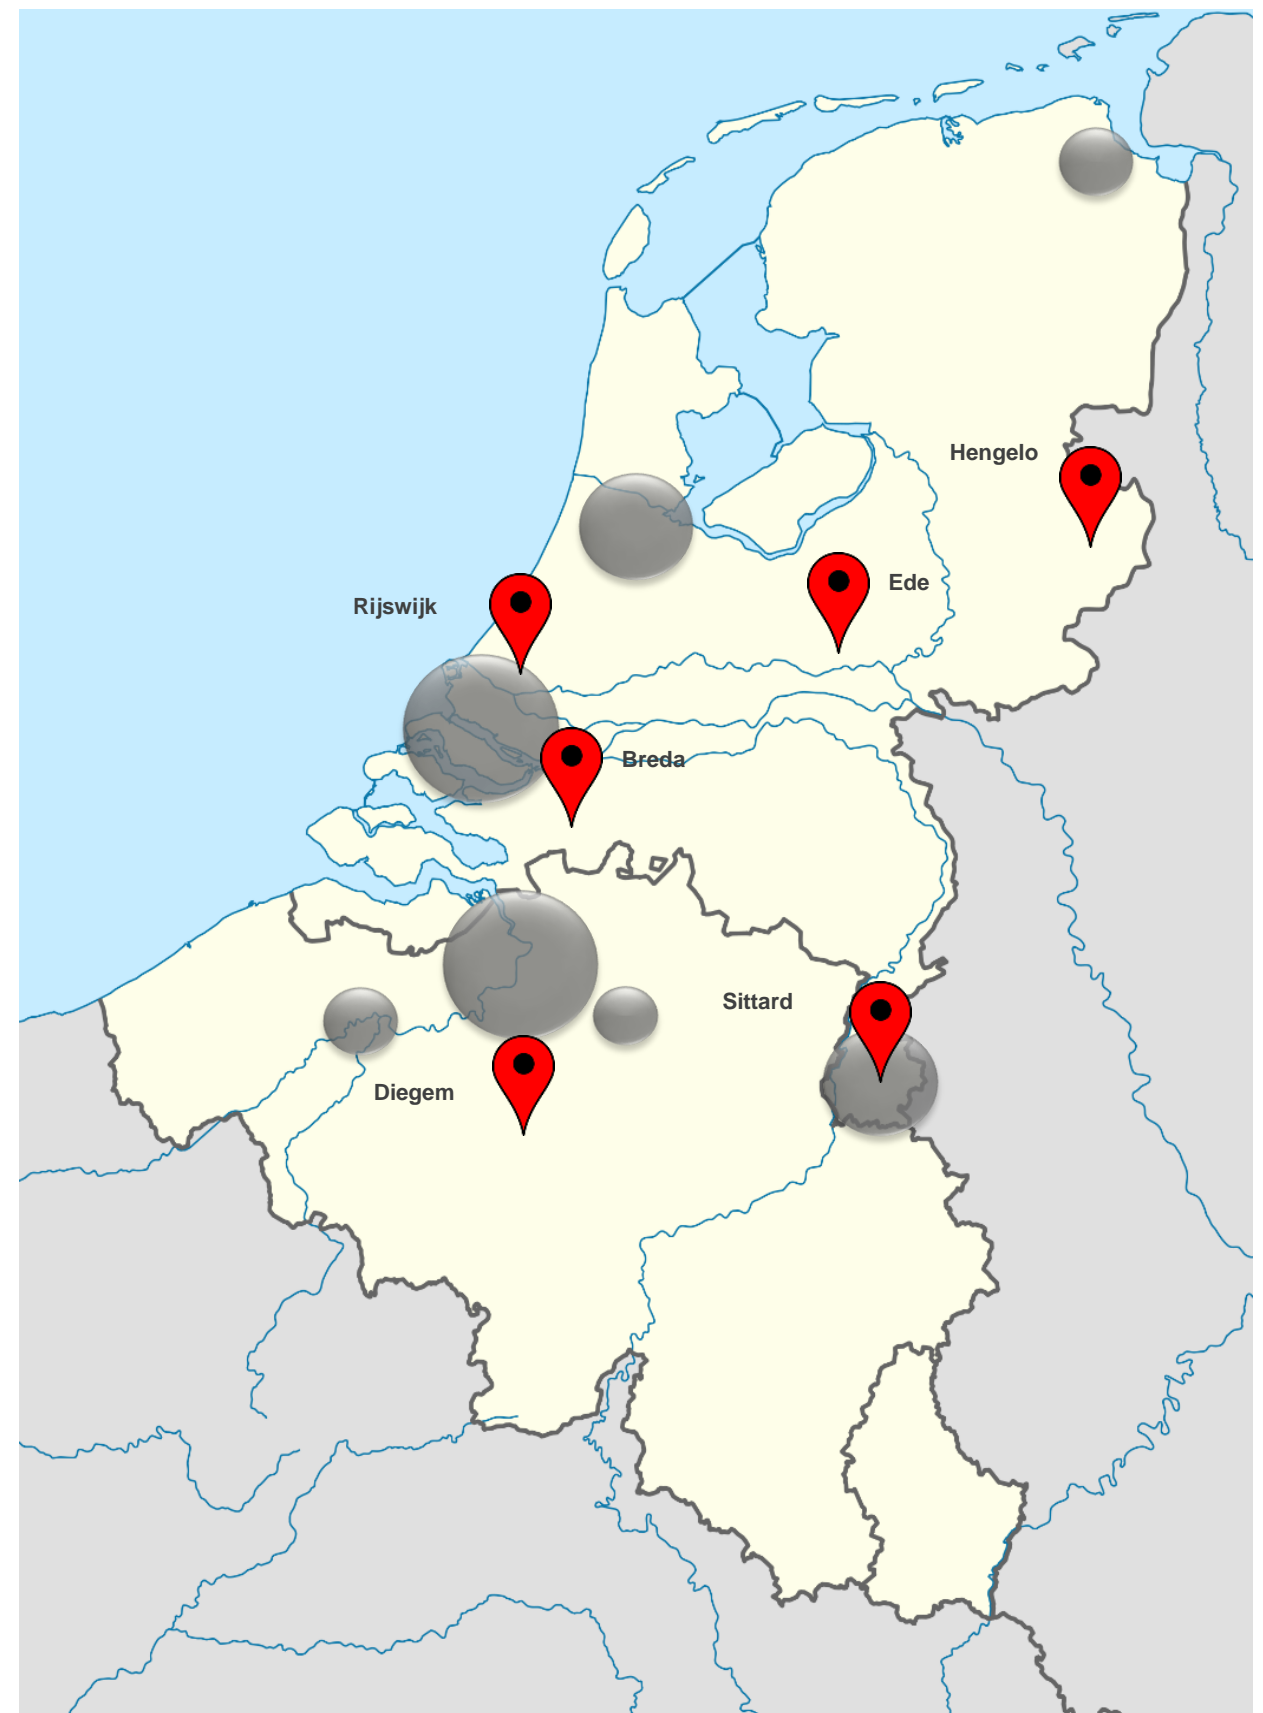

# Emerson Benelux

- Emerson Benelux – 900 medewerkers

Twee namen:

- Systems - Dennie de Waart (Lifecycle Services)
- Support - Jeroen Bronkhorst (Cyber security)

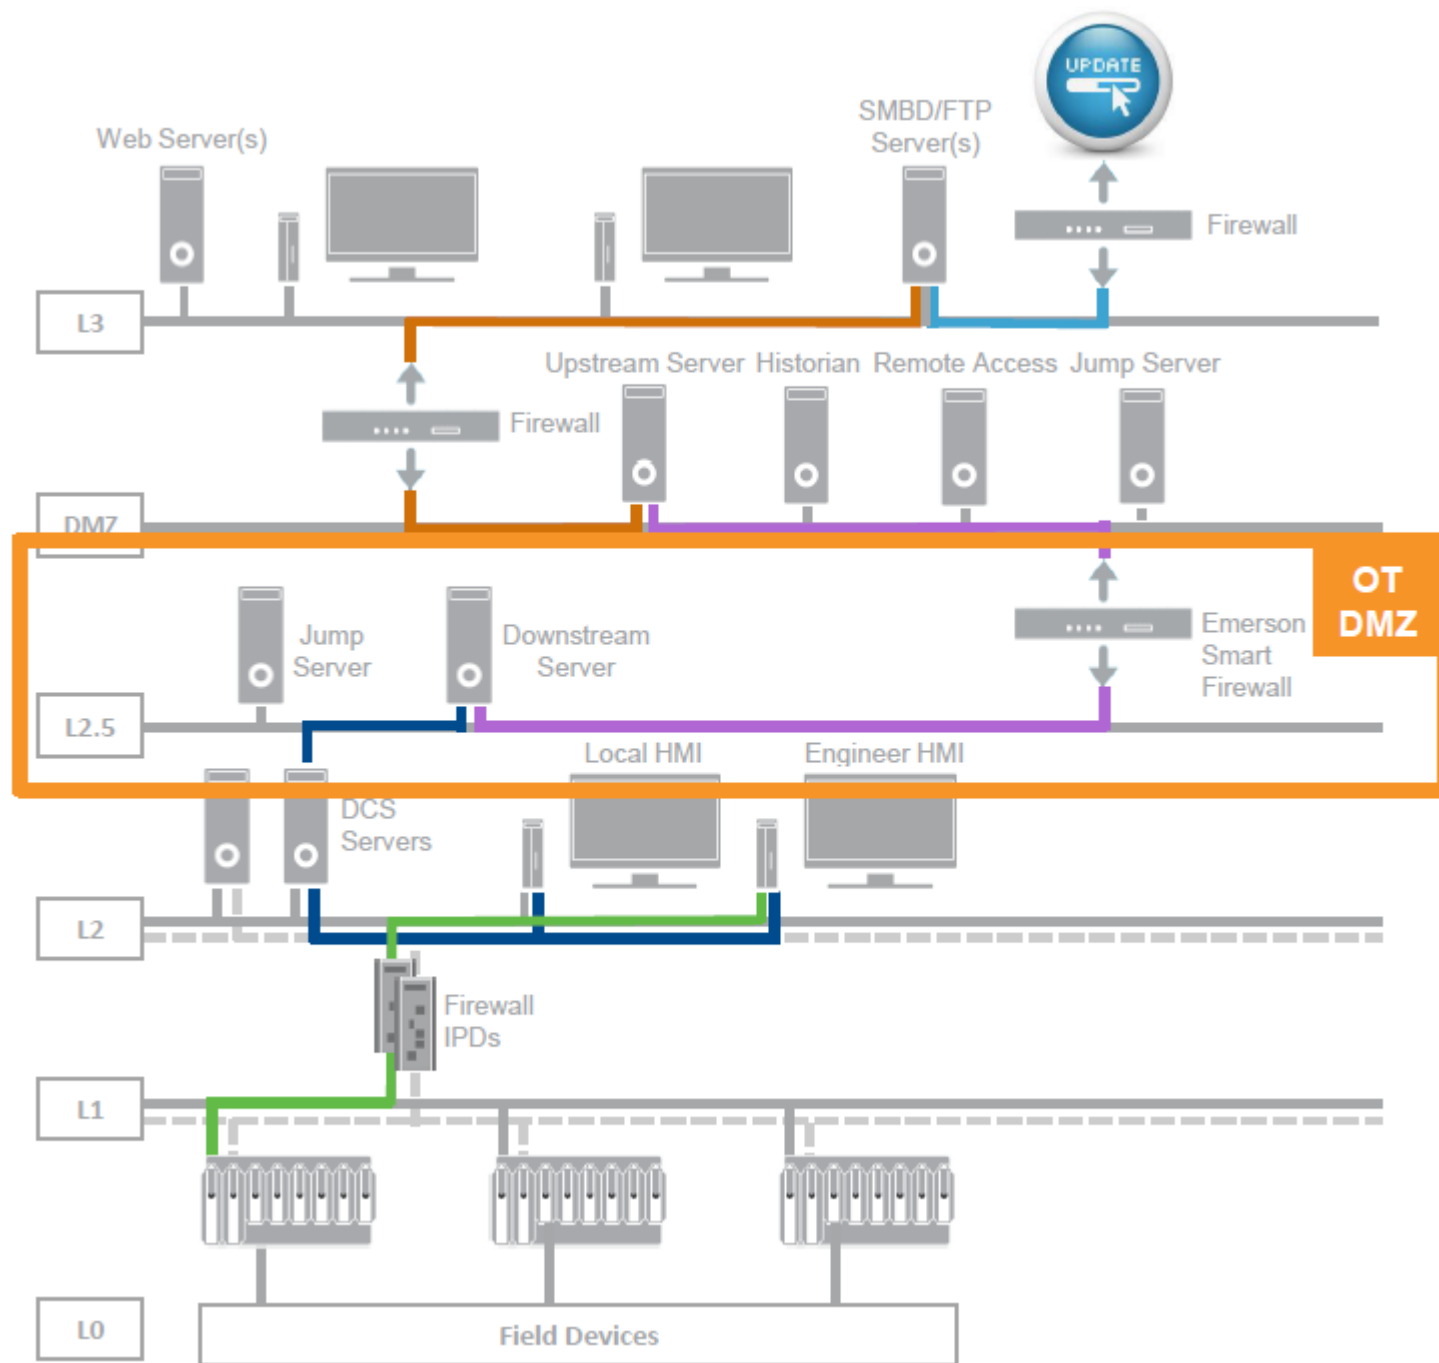

# **DeltaV**

## **Integrated Control & Safety System**

### **Cyber Security**

---

# 1. Segmentation - Firewall(s) & Level 2.5

The Emerson Smart **Firewall** provides the first line of protection for the Integrated Control & Safety System (ICSS).

A **DMZ** is applied to offer the first level of **segmentation** from the ICSS to the IT / Enterprise Network.

Implementing a Firewall and Level 2.5 DMZ allows secure connectivity for further Cyber Security solutions such as Endpoint Protection / Application Whitelisting and Advanced Patch Management.

# 2. Endpoint Protection & Application Whitelisting

## Endpoint Security for DeltaV Systems

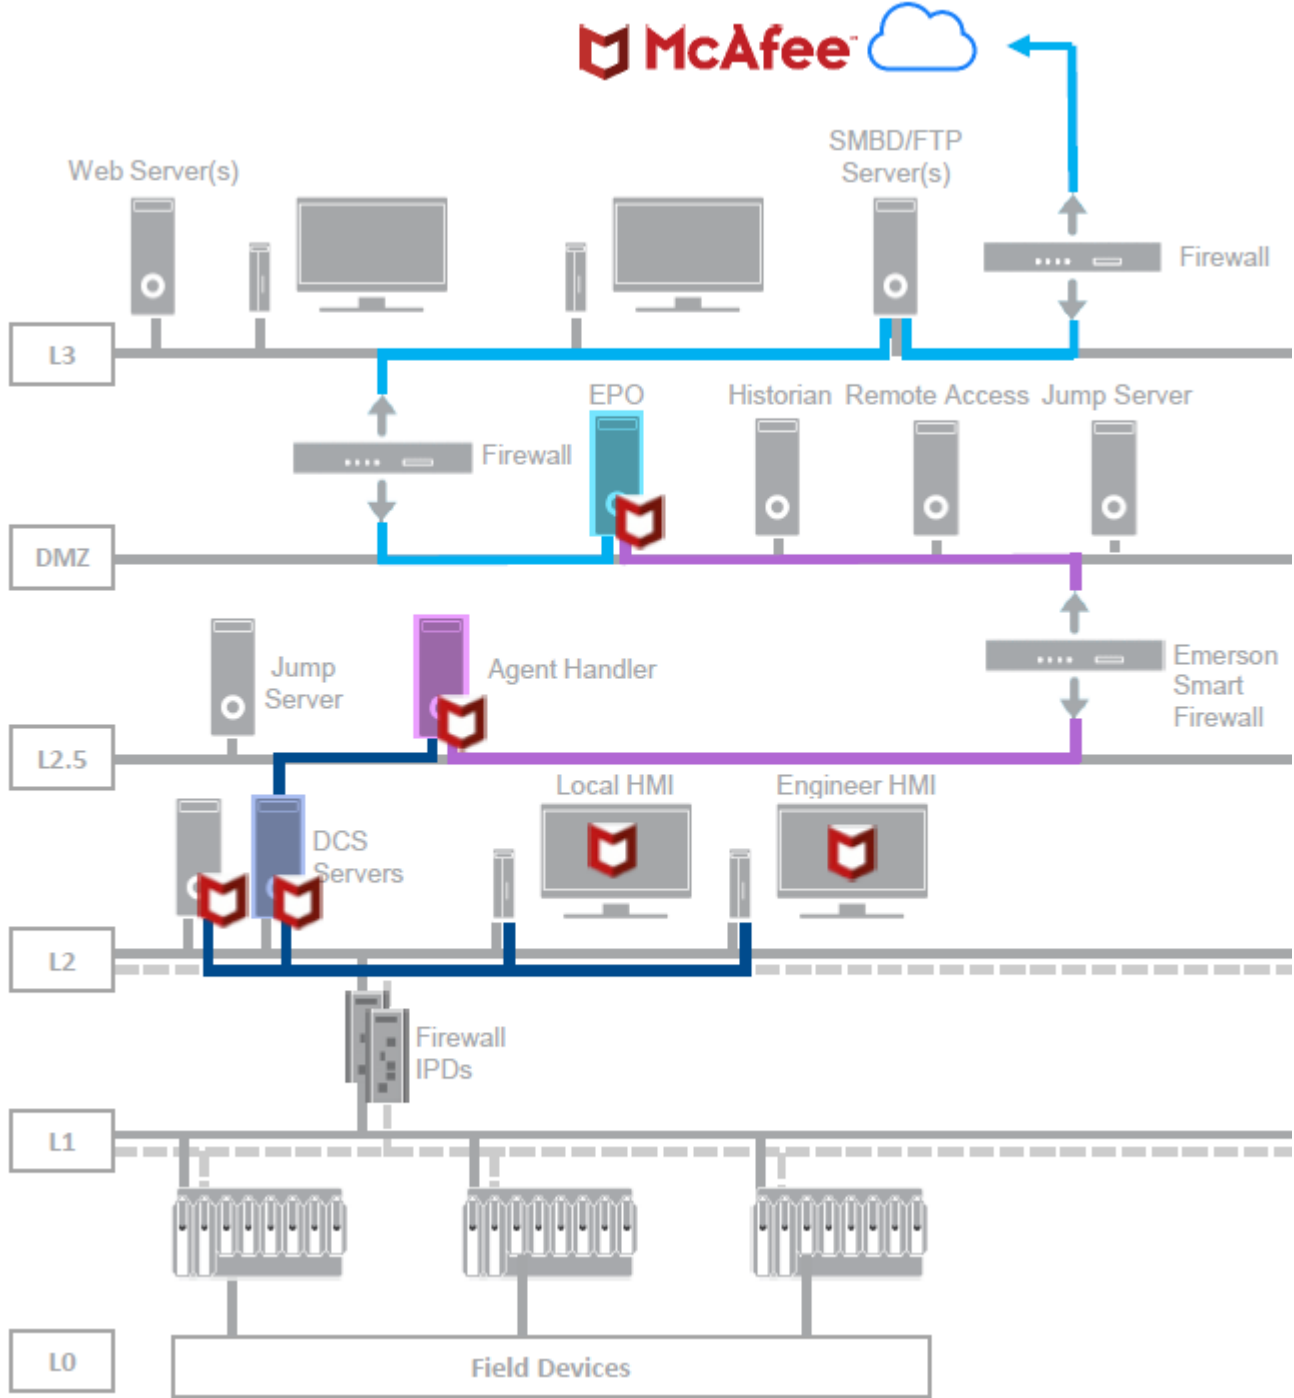

Protection against **known** threats

- Scan for threats
- Quarantine malicious files
- Deliver compliance
- Enable proactive response

## Application Whitelisting for DeltaV Systems

Protection against **unknown** threats

- Block zero-day threats
- Eliminate whitelisting management
- Support file integrity
- Prevent unauthorized changes

### 3. Backup and Recovery

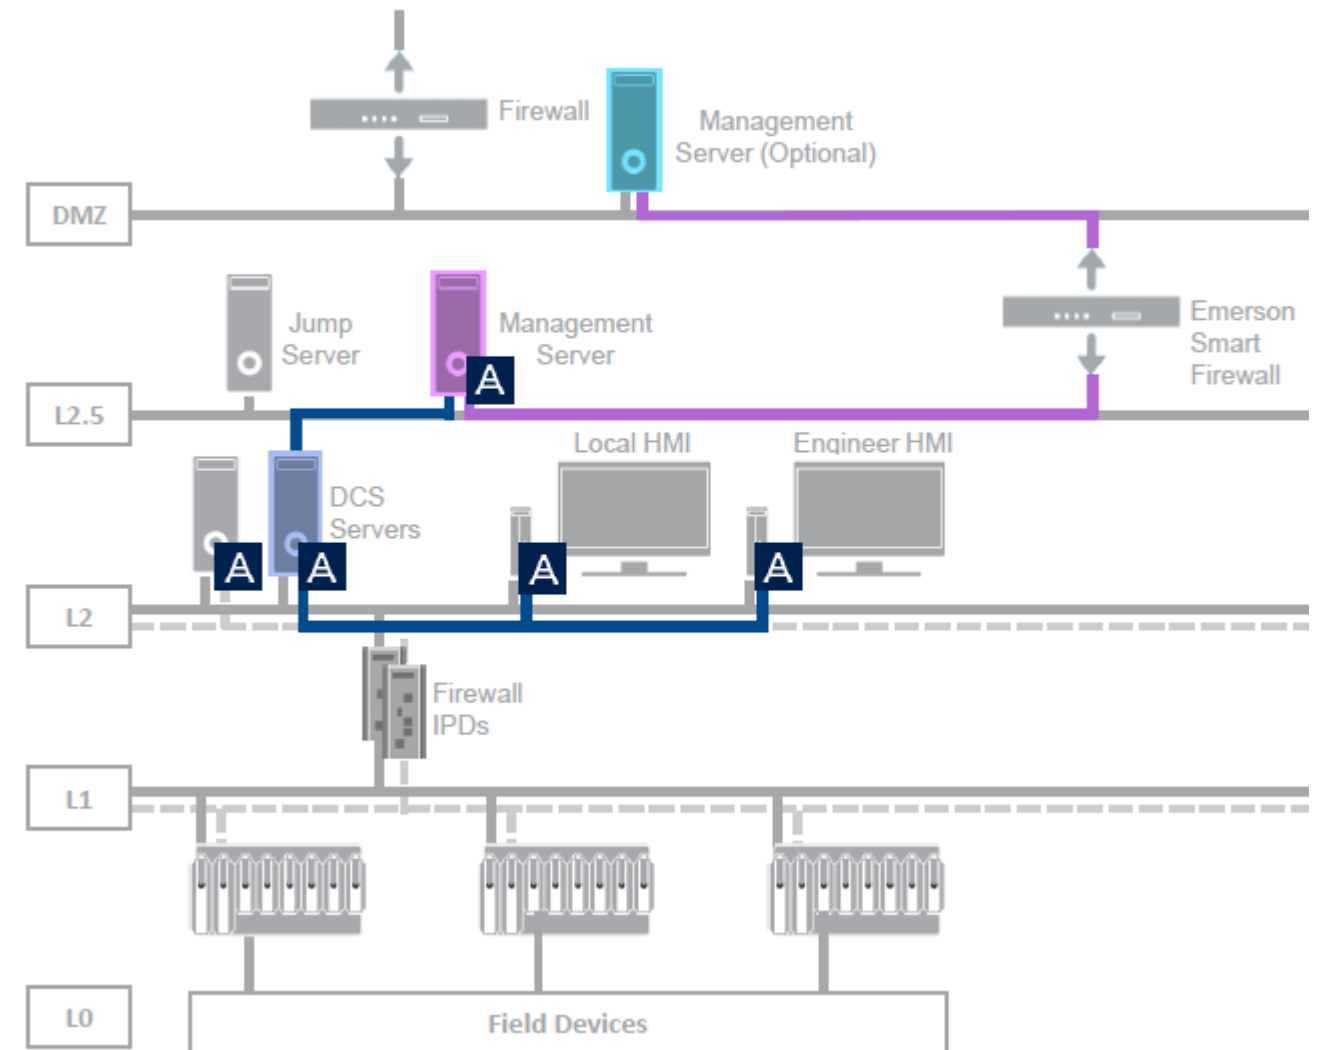

Backup and Recovery for DeltaV:

- Provides an automated backup (and restore) utility
- Single solution for data protection and disaster recovery
- Eliminates errors and saves time associated with manual procedures
- Based on industry leading **Acronis** software
- Emerson DeltaV specific Backup Plan Templates
  - Included in the Backup and Recovery solution
  - Differentiates DeltaV Backup and Recovery from competitors

3 Backups

2 Media

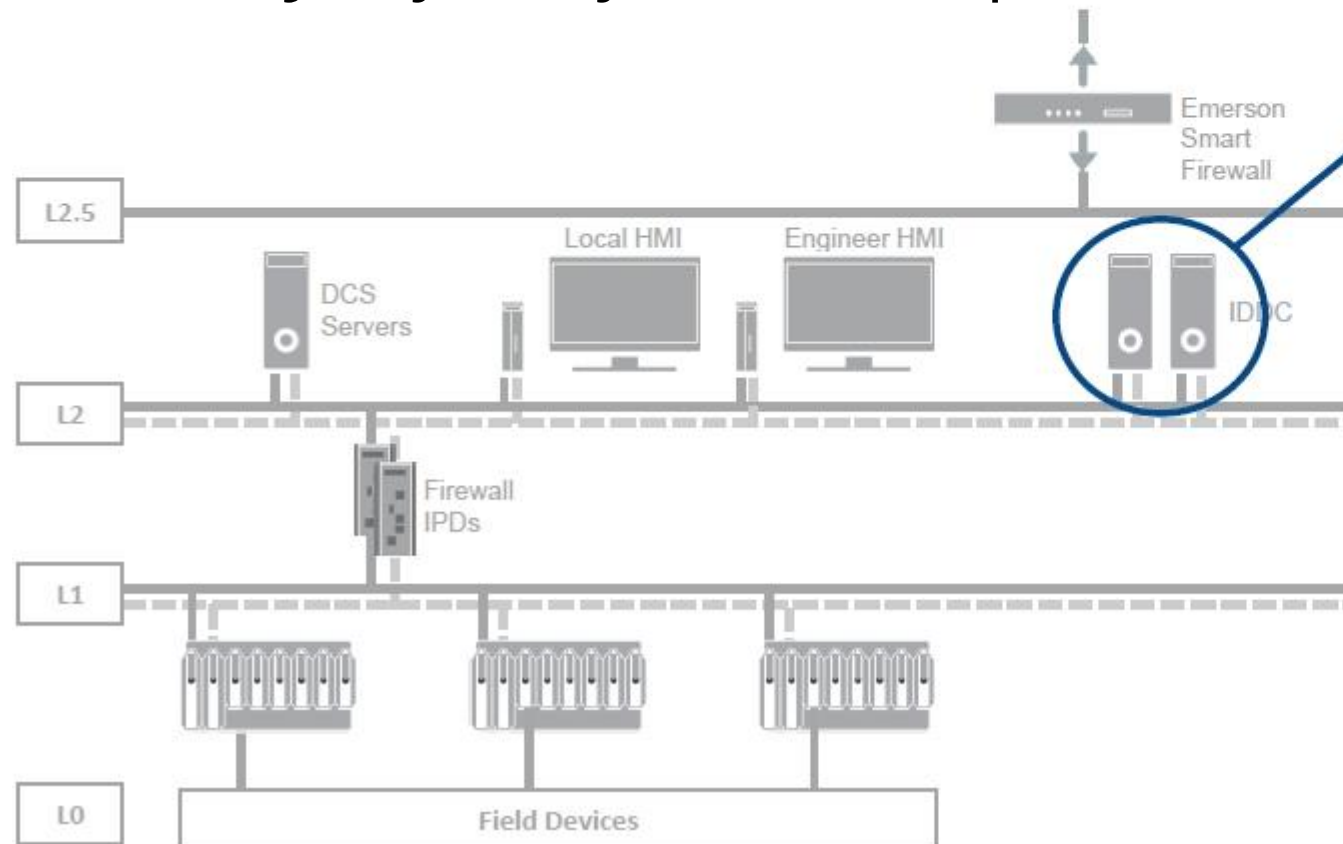

1 Off-Site

## 4. Independent DeltaV Domain Controller

The Independent DeltaV Domain Controller can be deployed on **standalone servers** instead of using the Professional Plus and Application Stations for the domain controller role.

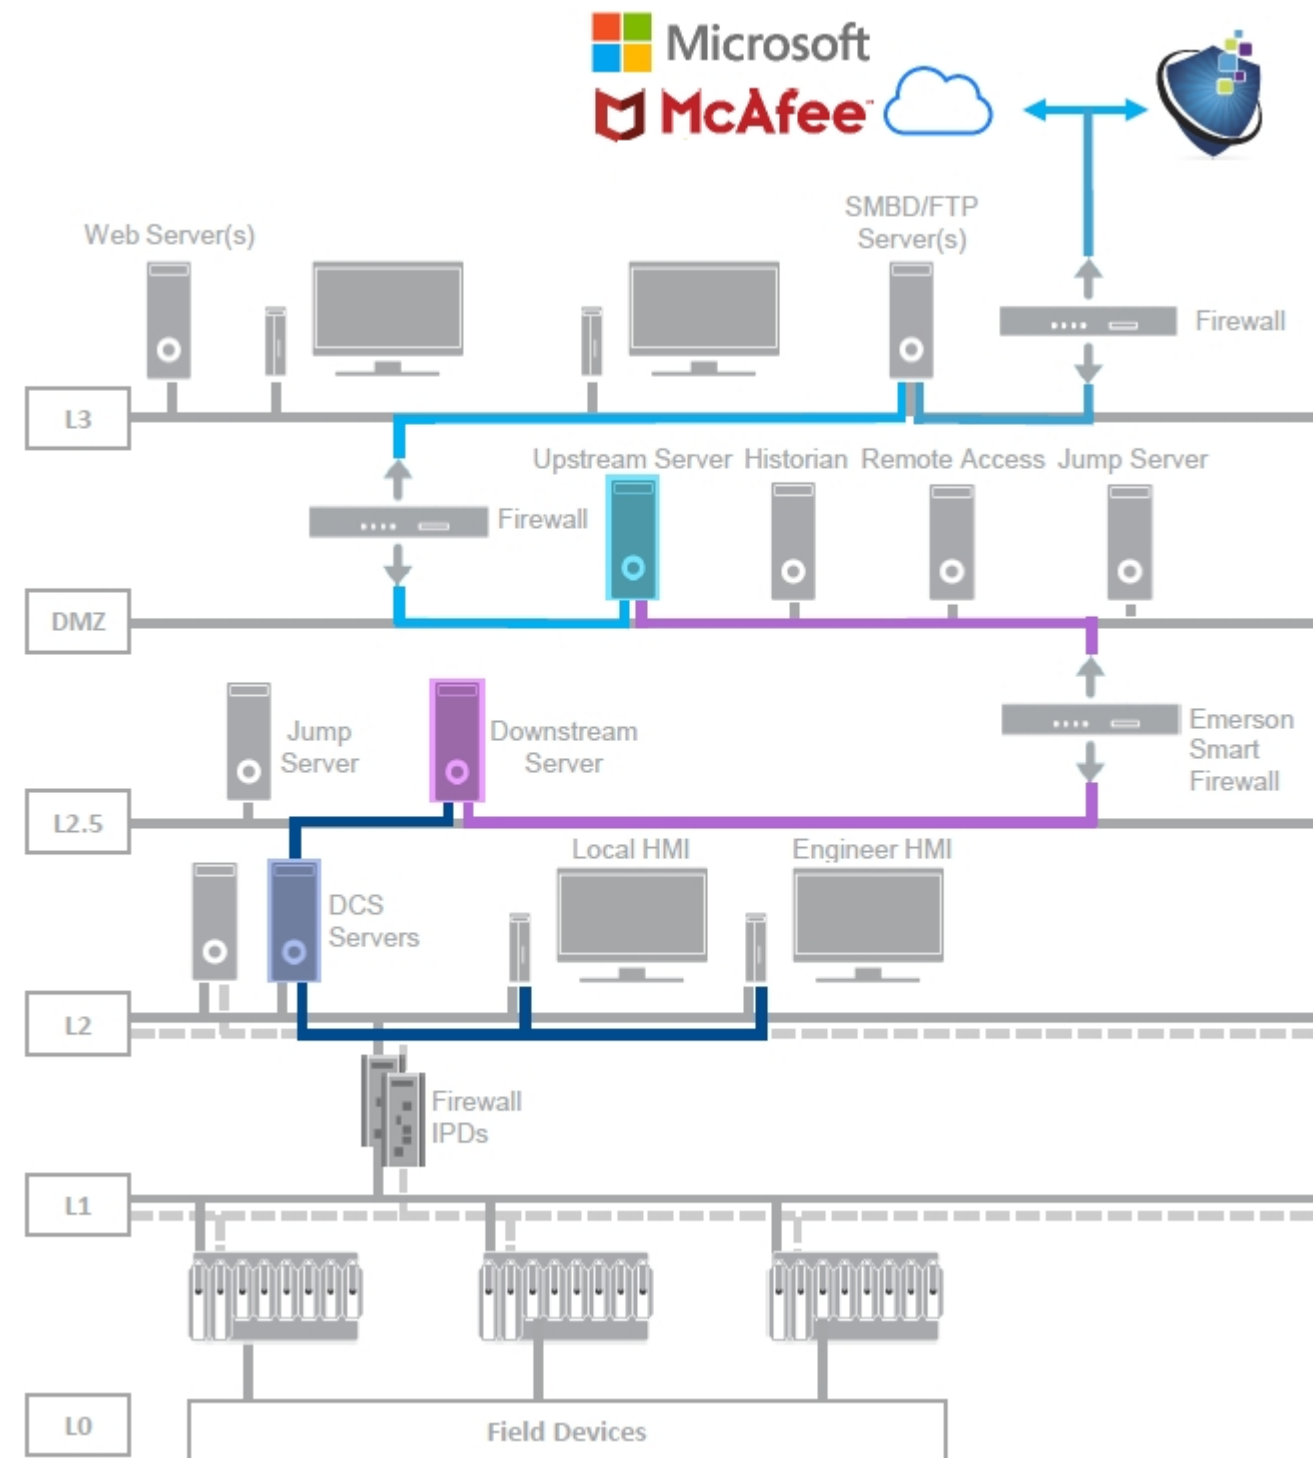

With multiple and physically separate domain controller's redundancy and **recovery** of your system are improved.

## 5. Integrated Patch Management

- Microsoft, McAfee & DeltaV **hotfixes**
- Downstream / Upstream communication **secured** via (**encrypted**) Transport Layer Security (TLS)
- Scalable Architecture
- Patching strategy is configurable to your requirements
- Easy installation and Environment checker
- Release strategy to improve features and tools of solution

# 6. Network Security Monitoring & Security Information Event Management

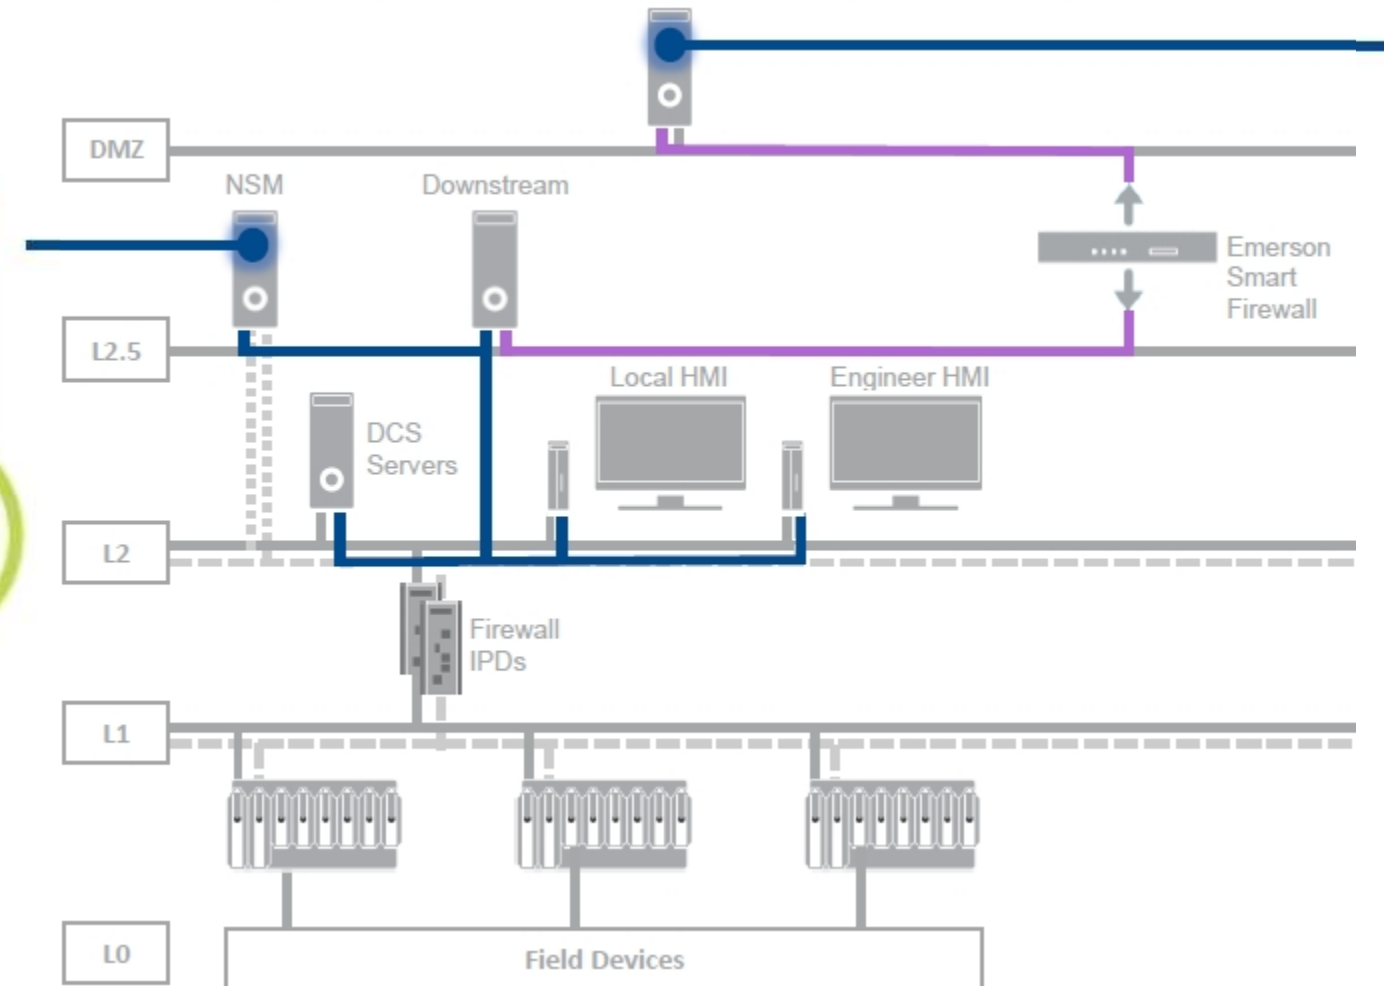

Network Security Monitoring for DeltaV provides a **proactive defense** measure that continuously **monitors** network traffic to identify suspicious content or activity.

Security Information Event Management will collect, store and correlate system events and logs from the IACS. Using advanced threat detection capabilities, Dashboards can be developed to provide real time information of the security state of your IACS.

**Network Security Monitor**

**Description:** monitors the traffic on your DeltaV ACN to identify suspicious content and malicious activity.

**Applicability:** Custom solution designed for DeltaV systems.

**SIEM for DeltaV Systems**

**Description:** collects, stores, and correlates events and logs from your DeltaV system, including Windows O/S and network devices.

**Applicability:** Custom solution designed for DeltaV systems.

## 7. Lifecycle Management for Cyber Security

- Phase 1: Cyber Security Management System (CSMS)  
Setting the goals.
- **Phase 2: Risk Assessment (RA)**  
**Identifying tolerable risk.**
- Phase 3: Technical Countermeasures  
Implement Technical countermeasures.
- Phase 4: Training  
Plug the People Gaps.  
processcontrol.nl: Menselijke factor vaak doorslaggevend in cybercrime
- Phase 5: Cyber Security Resource(s)  
Fill the Organizational Gaps.
- Phase 6: Monitoring & Reporting  
Deliver Cyber Reports and insight.
- Phase 7: Lifecycle Cyber Security Managed Service

**Have a great  
evening**

---
